

# MWW\_Metaframework\_Matrices Concept

Contents Overview:

## Matrix 1 — Route Navigation Matrix:

Determine which MWW route fits your question, context and desired outcome.

## Matrix 2 — Intervention Matrix:

Select an appropriate intervention based on the needs of a situation.

## Matrix 3 — Feedback Dynamics Matrix:

Recognize recurring patterns, tensions and feedback dynamics.

## Matrix 4 — Meadows MWW Relational Zones Matrix:

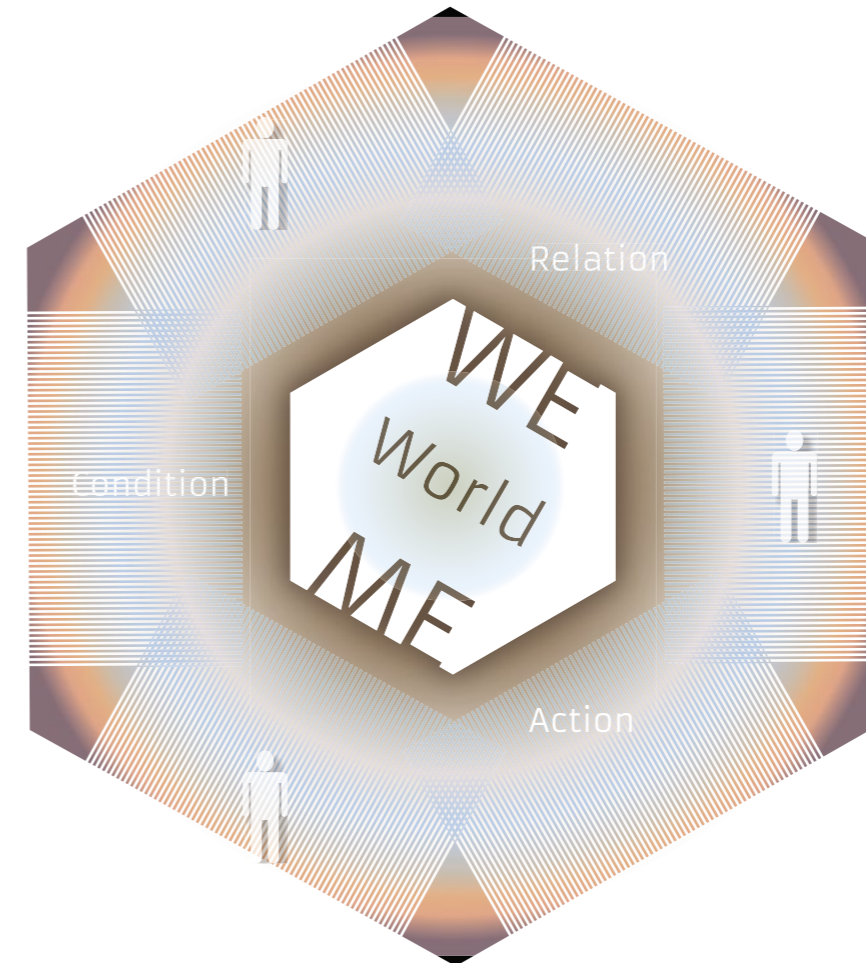

Translate Meadows systems thinking into MWW relational practice.

## Matrix 5 — P·P·V·T·G System Field Matrix:

Explore a situation through five system domains and their tensions.

## Matrix 6 — Facilitation Modes Matrix:

Connect facilitation approaches to routes, dynamics and desired outcomes.

### Navigation

Which route am I following?

### Interpretation

Which lens am I using?

### Activation

Which intervention am I activating?

# Matrix 1 – Route Navigation Matrix

Determine which MWW route fits your question, context and desired outcome.

Route	Primary Purpose	Typical Users	C•R•A-focus	Zone-range	Artifacts	Transfers	Lenses	Interventions	Facilitation	Primary Outcomes
<b>A</b>  Relational Reading 	situated awareness & relational literacy	beginners, individuals, students, coaching	Conditions Relation	A→B	Starter Cards, C•R•A Cards, Journal	Starter Canvas, C•R•A Matrix	S•T•U•A•R•T tensions, Relational Field	Relational Reading Session, Educational Reflection	Reflective, Holding	self-awareness, reflection, relational sensing
<b>B</b>  Commons Governance 	shared meaning-making & collective coordination	communities, facilitators, teams, commons initiatives	Relation Action	B→C	Governance Cards, Value System Cards, Flow Cards, People Cards	Governance Canvas	P•P•V•T•G Circles, Relational Field	Governance Dialogue, Community Sensemaking	Dialogical, Commons Facilitation, Containment	trust-building, participation, collective agreements
<b>C</b>  System Field 	navigating institutional/systemic complexity	researchers, educators, AI/design labs, transition practitioners	Relation Action	C	Technology Cards, Governance Cards, Research Cards, Flow Cards	Governance Canvas, Navigation Board	System Field Overlay, Meadows	AI Ethics Session, Institutional Reflection	Diagnostic, Mapping	systemic framing, ethical positioning, infrastructural awareness
<b>D</b>  World Pressure 	sensing macro pressures & contextual instability	policymakers, strategists, researchers, educators	Action Meaning	C→D	World Pressure Cards, Planet Cards, Research Cards	Relational System Design Canvas	Meadows Layer, Feedback Dynamics	World Pressure Mapping, Conflict Navigation	Navigational, Containment	pressure awareness, systemic risk mapping, contextual insight
<b>E</b>  Transformation 	transition design & future-oriented intervention	systemic designers, innovation teams, governance labs	Integrated C•R•A	D→E	World Pressure Cards, Technology Cards, Value System Cards, Governance Cards	Relational System Design Canvas, Navigation Board	P•P•V•T•G Circles, Future Scenario Overlay, Feedback Dynamics	Transition Design Lab, Commons Sprint	Transitional, Speculative, Commons Facilitation	transition pathways, intervention strategies, systemic transformation

Which route do I follow?

# Matrix 2 – Intervention Matrix

Select an appropriate intervention based on the needs of a situation.

Intervention	User Need	Route	Artifacts	Transfers	Lens	Facilitation	Outcomes
<b>Relational Reading Session</b>	I want to understand what is happening in a situation.	A	Starter Cards, C·R·A Cards, MWW Reading Journal	Starter Canvas	S·T·U·A·R·T Relational Quality	Reflective, Holding	reflection, self-awareness, relational literacy
<b>Governance Dialogue</b>	We need to speak about responsibility, trust, roles or decision-making.	B→C	Governance Cards, Value System Cards, Flow Cards	Governance Canvas	P·P·V·T·G Circles, Meadows	Dialogical, Governance Dialogue	governance reflection, shared agreements
<b>World Pressure Mapping</b>	We need to understand wider pressures around this issue.	D	World Pressure Cards, Planet Cards, Research Cards	Relational System Design Canvas	Meadows Circle-zones, Feedback Dynamics	Mapping, Navigational	systemic pressure awareness, contextual mapping
<b>AI Ethics Session</b>	We need to examine technology through human, ethical and systemic lenses.	C→D→E	Technology Cards, Governance Cards, C·R·A Cards	Governance Canvas, Navigation Board	P·P·V·T·G Circles, Meadows	Diagnostic, Ethics Dialogue	intervention proposal, ethical/systemic reflection
<b>Commons Sprint</b>	We want to design a fairer collective or commons-based arrangement.	B→E	Value System Cards, Governance Cards, People Cards, Flow Cards	Navigation Board, Governance Canvas	Commons Overlay, P·P·V·T·G Circles	Commons Facilitation, Transitional	commons strategy, transition pathway
<b>Educational Reflection Route</b>	I want to support learning, reflection or systems literacy.	A→C	Starter Cards, Research Cards, MWW Reading Journal	Starter Canvas	System Field Overlay	Reflective, Educational Facilitation	learning reflection, systems literacy
<b>Conflict Navigation Session</b>	There is tension, polarisation or suppressed conflict.	B→D	C·R·A Cards, Governance Cards, Flow Cards	Governance Canvas	Feedback Dynamics	Containment, Conflict Navigation	tension mapping, relational containment
<b>Transition Design Lab</b>	We need to move from insight toward transition pathways.	C→E	Technology Cards, Planet Cards, World Pressure Cards	Relational System Design Canvas, Navigation Board	Future Scenario Overlay, P·P·V·T·G Circles	Transitional, Speculative	transition scenarios, strategic direction
<b>Community Sensemaking Workshop</b>	A group needs shared meaning and participation.	A→B	People Cards, Flow Cards, C·R·A Cards	Governance Canvas	Relational Field Overlay	Dialogical, Collective Reflection	shared meaning-making, participation
<b>Institutional Reflection Session</b>	We need to understand institutional pressure, rules or system positioning.	C→D	Research Cards, Governance Cards, World Pressure Cards	Navigation Board	Meadows Circle-zones, Feedback Dynamics	Diagnostic, Institutional Reflection	institutional awareness, systemic positioning

Which intervention do I choose?

# Matrix 3 — Feedback Dynamics Matrix

Herken terugkerende patronen, spanningen en feedbackdynamieken.

Archetype	Relational Dynamic	Symptom	S•T•U•A•R•T Dominance	Zone Meadows	P•P•V•T•G Domain	Governance Effect	Route	(Possible) Intervention
Reinforcing Loop	escalation / amplification	polarization increases	Trust Identity	B	Governance	rigidity	B → D	slowing down + relational reading
Balancing Loop	stabilization	temporary calm	Relaxation Acceptance	A/B	People	maintaining the status quo	A → B	making tensions explicit
Shifting the Burden	symptom treatment	dependency	Awareness Responsibility	C	Technology/ Governance	loss of autonomy	C	system reflection
Dependency Loop	external steering	passivity	Safety Autonomy	B/C	Governance	centralization	B → C	commons intervention
Extraction Loop	value extraction	burnout / depletion	Togetherhness Interdependence	C/D	Planet/Economy	inequality	D → E	relational redistribution
Suppressed Tension	conflict suppressed	false harmony	Trust Identity	B	People	fragile collaboration	B → D	conflict navigation
Meaning Collapse	loss of shared meaning	cynicism	Understanding Knowledge	D	Value Systems	legitimacy crisis	D	collective reflection
Fragmentation Loop	fragmentation / silo formation	us-versus-them thinking	Togetherhness Interdependence	B/C	Governance	polarization	B → C	commons dialogue
Optimization Trap	efficiency dominates	human alienation	Safety Autonomy	C	Technology	technocracy	C → E	ethics session
Transformative Learning	feedback leads to awareness	new forms of collaboration	Awareness Responsibility	D	All	system transition	E	transition lab

What pattern do I see?

# Matrix 4 — Meadows MWW Relational Zones Matrix

Translate Meadows systems thinking into MWW relational practice.

Meadows Zone	Systems Language	MWW Translation	C-R-A Focus	P-P-V-T-G Focus	Dominant Relational Dynamic	Dominant S-T-U-A-R-T Tension	Primary Routes	Typical Interventions	Typical Artifacts / Transfers	Primary Outcomes
Zone A	Parameters, thresholds, observable conditions	Observable Conditions	Conditions	People / Planet	sensing visible tension, symptoms, instability	Safety ↔ Autonomy	Route A — Relational Reading	Relational Reading Session, Educational Reflection	Starter Canvas, C-R-A Matrix, Starter Cards	reflection, situated awareness, relational literacy
Zone A→B	Flows & interactions	Emerging Relational Dynamics	Conditions Relation	People / Governance	recurring interactions, friction, mistrust, misalignment	Trust ↔ Identity	Route A→B	Community Reflection, Governance Dialogue	Governance Canvas, Relational Field Overlay	trust-building, shared meaning
Zone B	Feedback loops, information flows	Relational Dynamics	Relation	Governance / Technology	reinforcing loops, dependency patterns, escalation	Understanding ↔ Knowledge	Route B — Commons Governance / Route C — System Field	Conflict Navigation, System Diagnosis	Feedback Dynamics Overlay, Governance Canvas	pattern recognition, relational diagnostics
Zone B→C	Coordination structures	Governance Patterns	Relation → Action	Governance / Value Systems	role tension, coordination pressure, inclusion/exclusion	Awareness ↔ Responsibility	Route B→C	Governance Dialogue, Commons Sprint	Governance Canvas, P-P-V-T-G Circles	collective agreements, governance reflection
Zone C	Rules, infrastructures, institutional logic	Governance Structures	Action	Governance / Technology	institutional dependency, systemic lock-in	Responsibility ↔ Interdependence	Route C — System Field	Institutional Reflection, Ethics & AI Session	Navigation Board, System Field Overlay	systemic framing, ethical positioning
Zone C→D	Paradigm tension	Meaning Systems in Transition	Action → Meaning	Value Systems / Governance	legitimacy crisis, worldview conflict, meaning collapse	Trust ↔ Togetherness	Route C→D	World Pressure Mapping, Conflict Navigation	Meadows Overlay, Feedback Dynamics	systemic pressure awareness, contextual insight
Zone D	Paradigms, worldview, civilizational assumptions	Meaning Systems	Deep Relational Orientation	Value Systems	ideological fragmentation, existential uncertainty, civilizational narratives	Togetherness ↔ Interdependence	Route D — World Pressure	Future Scenario Lab, Transition Workshop	Future Scenario Overlay, World Pressure Cards	systemic risk mapping, future awareness
Zone D→E	Transformation & emergence	Transition Ecology	Conditions Relation Action integration	All P-P-V-T-G domains	emergence, adaptation, transition learning	Full S-T-U-A-R-T field	Route E — Transformation	Transition Design Lab, Commons Sprint	Relational System Design Canvas, Navigation Board	transition pathways, systemic transformation
Zone E (MWW extension beyond Meadows)	Regenerative adaptation	Relational Transformation Ecology	Integrated CRA Ecology	adaptive relational intelligence, living governance	adaptive relational intelligence, living governance	S-T-U-A-R-T as integrated field condition	Route E	Transformation Design, Commons Ecosystem Work	Full Navigation Ecology	regenerative governance capacity, relational resilience

In which (Meadows) zone is this located?

# Matrix 5 — P·P·V·T·G System Field Matrix

Explore a situation through five system domains and their tensions.

P·P·V·T·G Domein	Central Question	Transfer	Dominant Tension	S·T·U·A·R·T	Meadows Zone	Feedback Dynamics	Governance Risk	Routes	Interventions
People	Who is affected?	Governance Canvas	Safety ↔ Autonomy	Safety	A–B	Balancing, Suppressed Tension	exclusion	A, B	Reflection, Dialogue
Planet	What are the ecological consequences?	Relational System Design Canvas	Togetherness ↔ Depletion	Togetherness	C–D	Extraction Loop	externalities	D, E	Pressure Mapping
Value Systems	Which values are in conflict?	Governance Canvas	Trust ↔ Identity	Trust	D	Meaning Collapse	legitimacy crisis	B, D	Governance Dialogue
Technology	What logic is driving behaviour?	Navigation Board	Understanding ↔ Knowledge	Understanding	C	Optimization Trap	technocracy	C, E	AI Ethics
Governance	Who decides?	Governance Canvas	Awareness ↔ Responsibility	Awareness	B–C	Dependency Loop	centralization	B, C	Commons Sprint

Which system domain is involved?

# Matrix 6 — Facilitation Modes Matrix

Match facilitation approaches to routes, dynamics, and desired outcomes.

Facilitation Mode	Facilitator Role	Dominante Route	Transfer	Group Dynamic	S•T•U•A•R•T Qualities	Outcome
Reflective	slowing down	A	Starter Canvas	personal reflection	Awareness/Conditions	Reflection
Dialogical	opening perspectives	B	Governance Canvas	meaning-making	Trust	Shared Meaning
Diagnostic	making patterns visible	C	Navigation Board	analysis	Understanding	Insight
Navigational	holding tension	D	System Design Canvas	uncertainty	Relaxation	Orientation
Transitional	developing direction	E	System Design Canvas	change	Responsibility	commitment
Containment	holding conflict	B–D	Governance Canvas	tension	Togetherness	Stewardship
Speculative	exploring futures	D–E	Navigation Board	imagination	Understanding ↔ Awareness	future literacy
Commons Facilitation	building collective agreements	B–E	Governance Canvas	collaboration	Togetherness	collective stewardship

Level 1 — What is happening?

Condition Awareness Action (C•R•A)

Level 2 — What pattern do we see?

Feedback Dynamics / Archetypes

Level 3 — Which relational quality is affected?

C•R•A | S•T•U•A•R•T

Level 4 — Where in the system do we see this?

P•P•V•T•G + Meadows Zone

How do I facilitate this?
